City of Helena employees, their dependents, retirees and other entities who are on an insurance plan through the City of Helena are eligible for the shot, free of charge.

City employees, their dependants or Airport, BID or Library employees who are not participating in the City of Helena medical insurance may get a flu vaccine; however they will need to pay \$20 for the shot at the time of service.

If you can not attend this date and are on the City's insurance, you can get the shot at the L & C Co. Health Department (call 443-2584 for immunization times/days), or a pharmacy. Immunizations are preventative medicine and covered 100% (up to the max \$ allowed) on our insurance plans.
